Introduction

1. The Government of Finland has provided detailed statistical information on imports by Finland, classified by beneficiary country and by product, in 1987, 1988 and 1989. This information is summarized below and is shown in detail in tables 1 and 2 of the annex to this note. 1/

2. The information contained in table 1 relates to the value of total, dutiable, GSP-covered and preferential imports, 2/ from each beneficiary of products contained in the Harmonized System Description and Coding System (H.S) chapters 1-24, 25-97 and 1-97. 3/ Table 2 gives the value of imports of major products covered by the scheme from the world and the total of preferential imports from all beneficiaries as well as from major beneficiary suppliers of these products.

I. Imports by Finland from beneficiary suppliers, 1987, 1988 and 1989

3. As may be seen from table 1B, Finland registered imports from 108, 104 and 109 beneficiaries in 1987, 1988 and 1989, respectively. Fifteen of the beneficiaries in 1987, 13 in 1988 and 9 in 1989 could not lay claim to preferential treatment because their exports were not covered by the scheme. In addition, 37 beneficiaries in 1987, 33 in 1988 and 37 in 1989 failed to receive preferential treatment in those years, although some of their exports were covered by the scheme. One reason may have been non-compliance with rules of origin. Often, however, beneficiary exporters do not claim GSP treatment because of the low preferential margin on exported products. Thus 56 beneficiaries actually received GSP treatment in 1987, 58 and 63 in 1988 and 1989 respectively.

4. Total Finnish imports from all beneficiaries in 1987, 1988 and 1989, as shown in table 1A amounted to $1.40 billion, $1.57 billion and $1.71 billion. Dutiable imports accounted for $1.22 billion in 1987, $1.31 billion in 1988 and $1.41 billion in 1989 or 87.8 per cent, 83.7 per cent and 82.5 per cent of the total value of each year, respectively. Of these imports 28.3 per cent or $346 million were covered by the scheme in 1987, 31 per cent or $406 million in 1988 and $492 million or 34.8 per cent in 1989. The bulk of these covered imports ($230 million or 66.3 per cent in 1987, $308 million or 73 per cent in 1988 and $390 million or 62.9 per cent in 1989) consisted of industrial products and raw material, in H.S. chapters 25-97. 3/ Agricultural products in H.S. chapters 1-24 3/ accounted for the remaining $117 million, $98 million and $101 million in each year. Those imports which actually received preferential treatment amounted to $246 million in 1987 of which $105 million (42.7 per cent) were agricultural products and $141 million (57.3 per cent) were industrial products. In 1988, preferential imports amounted to $250 million of which $84 million (33.7 per cent) were agricultural products and $166 million (66.3 per cent) were industrial products. In 1989, preferential imports amounted to $311 million of which $90 million (28.9 per cent) were agricultural products and $221 million (71.1 per cent) were industrial products.

5. The overall rate of utilization of the Finnish scheme, as measured by the ratio of imports covered by the scheme, was 70.9 per cent in 1987, 61.6 per cent in 1988 and 63.3 per cent in 1989. The utilization rates of agricultural products and industrial products amounted in that order to 89.9 per cent and 61.3 per cent in 1987, 86.4 per cent and 53.8 per cent in 1988 and 89 per cent and 56.7 per cent in 1989. However, as may be seen from table 1B, these utilization rates vary widely from beneficiary to beneficiary.

6. Fifteen major suppliers accounted for $280 million or 80.9 per cent of all imports covered by the Finnish scheme in 1987 and for $199 million or 80.9 per cent of the total value of imports which actually received preferences. In 1988, 13 major suppliers accounted for $332 million or 81.8 per cent of all imports covered by the scheme and for $197 million or 78.8 per cent of the total value of imports which actually received preferences. In 1989, 12 major suppliers accounted for $396 million or 80.5 per cent of all imports covered by the scheme and for $239 million or 76.8 per cent of the total value of imports which actually received preferences. By order of the relative value of covered imports into Finland in 1989, the major suppliers were: Republic of Korea, China, Hong Kong, Thailand, Singapore, Yugoslavia, Brazil, India, Turkey, Romania, Philippines and Israel. It should be noted that the United Republic of Tanzania, Burundi and Ethiopia, considered as least developed among developing countries, which were among major suppliers in the past, ceased to be major suppliers in 1989.

7. Dutiable Finnish imports from 28 supplying least developed countries (LDCs) in 1987, 26 in 1988 and 30 in 1989 attained a value of $51.9 million, $32.2 million and $40.3 million respectively of which $43.9 million or 84.5 per cent, $22.2 million or 68.7 per cent and $28.9 million or 71.7 per cent were covered by the scheme. Of these covered imports, 92.4 per cent or $40.6 million, 85.6 per cent or 19 million and 93.5 per cent or 27 million received preferential treatment in 1987, 1988 and 1989 respectively. Twelve of these least developed countries received preferential treatment in 1987, 11 in 1988 and 14 in 1989. Burundi ($9.1 million), Ethiopia ($9 million), the United Republic of Tanzania ($4.4 million), Malawi ($2.7 million) and Rwanda ($1.1 million) alone accounted for 97 per cent of total preferential imports in 1989. In 1987 these five countries ($10.3, 7.0, 15.1, 5.0, 2.6 million respectively) accounted for 98.4 per cent of total preferential imports.

8. Finnish imports of products covered by its scheme from Mediterranean (MED) and ACP countries which enjoy special preferences in the EEC market amounted to $30.9 million and $29 million in 1989 respectively. Those imports to Finland from MED countries showed an annual average increase of 32 per cent between 1987 and 1989 while those from ACP countries showed a decrease of 32 per cent for the same period. The value of covered imports from the two sources which received GSP treatment in 1989 amounted to $23.2 million and 26.8 million respectively. Thus in 1989 these two groups of countries supplied 12.2 per cent of products eligible for preferential treatment under the scheme and 16.1 per cent of total imports which actually received preferential treatment. Comparatively these two percentages in 1987 were valued at 18 per cent and 22.2 per cent respectively.

II. Imports of major products under the Finnish scheme in 1987, 1988 and 1989, and major suppliers

9. Tables 2A, 2B and 2C show the value of Finnish imports in 1987, 1988 and 1989 of major products covered by its scheme from the world, all beneficiary suppliers and individual major suppliers, as well as the value of imports of these products which effectively received preferential treatment. Imports from beneficiaries of major products, defined at the Finnish tariff line level, covered by its scheme in 1987, 3/ 1988 and 1989, were recorded under 136, 198 and 232 tariff lines respectively. Imports of these major products from beneficiaries amounted to $277.2 million or 80 per cent of the

total imports covered ($364.4 million) in 1987, $324.9 million or 80.1 per cent of the total imports covered ($405.8 million) in 1988 and $393.6 million or 80 per cent of imports covered ($491.7 million) in 1989. Of these imports 72.3 per cent in 1987, 63.3 per cent in 1988 and 65.5 per cent in 1989 received preferential treatment.

10. Some 19 major products, the preferential imports of which were valued at $2 million or more, accounted for 65.2 per cent of the preferential imports of the 136 major products in 1987. Likewise some 18 and 25 products for 55.2 per cent and 55.8 per cent of preferential imports of the 198 and 232 major products in 1988 and 1989 respectively. The most important among these products in 1989 were (value of preferential imports expressed in $ million): Finnish tariff line (f.t.l.) 09011100 coffee not roasted, not decaf. ($26.3); f.t.l. 08030021 bananas from 1 January to 31 May ($21.7); f.t.l. 85165000 microwave ovens ($13); f.t.l. 20082000 Pineapples ($11.8); 16041411 prepared tunas ($8.7); f.t.l. 64061010 uppers ... of leather ($6); f.t.l. 94015000 seats of cane, osier ... ($5.5); f.t.l. 62160000 gloves ($5.1); f.t.l. 57011010 carpets of wool ($4.9); f.t.l. 160414412 prepared skipjack ($3.6); f.t.l. 52081200 plain woven fabrics of cotton ($3.3); f.t.l. 44183000 parquet panels of wood ($3); f.t.l. 94038000 furniture of other materials (cane, osier ...) ($3); f.t.l. 67029000 artificial flowers of non-plastics materials ($2.9); f.t.l. 85211000 Magnetic tape-type ($2.9); f.t.l. 16042011 prepared tunas and mackerel ($2.8); f.t.l. 85322250 Aluminium electrolytic fixed capacitors ($2.5); f.t.l. 85281011 Colour television receivers ($2.3); f.t.l. 87084000 gear boxes ($2.2); f.t.l. 15131100 crude coconut oil ($2.2); f.t.l. 72133190 Bars and rods not rolled of iron ($2.2); f.t.l. 44182000 Doors of wood ($2.1); f.t.l. 46021000 basketwork ... of vegetable materials ($2.0); f.t.l. 5903100 textile fabrics impregnated with polyvinyl chloride ($2.0); f.t.l. 84719200 input or output units of automatic data processing ($2.0).

Notes

1/ The terminology used is that of the submitting Government.
